

TEENAGERS' EXCHANGE: BOSTON

Are you thinking about travelling abroad? Don't have doubts, because it is an incredible experience that you have never imagined. I recommend you to go to USA, for example Boston. It's a wonderful city and it's famous for its great colleges like Harvard or M.I.T. and for the activities that you can do.

I was there this summer and it has been the best holidays in my life. You can meet people from other countries, try out new cultures, visit different places, make good friends and the main advantage; you can learn English and fit into a real American family. Boston has a lot of possibilities to have fun. You can go shopping to one of the best centers like Prudential, going out to the peaceful cafés and clubs in Newberry Street or Quincy Market and if you prefer watching a Red Sox's or Celtics' match. As well, at the weekends you can visit the nice villages around like Salem or Cape Cod's beaches and visit the beautiful lakes or go to New York with your friends. But, don't worry, because at nights you can also go to the typical American clubs or choose to spend your time with your family making a barbecue.

Definitely, I recommend this experience for everyone, because it will be unforgettable and you will have incredible and amazing memories.
