

ZOOCLASS

This class is gone nuts
it makes me feel sick
in winter, in the spring
how can they be so bad?

I come into the class
and don't know what to do
this class is just a zoo
they make me go mad

The monkeys here they are
and there the chimpanzees
in front the babouins
and apes right at the back

The cockatoos squawking
and parrots beak clicking
and bulls always horning
and hens always cackling

The sound is really awful
it makes this place hell
I'm just about to yell
call King Kong the colossal

or lock them all inside
with swarms of mosquitoes
fighting for burritos
at the very lunch time

And wonder who would be
the winner after all
this crazy zoo is a fall
a fight with nails and teeth...

They say this coming week
little angels they will be
but something inside me
It says it's just a dream...
